ATTN: MS. JUDY BRO

Dear Ms. Bro:

The Wilderness Trail Region of the Porsche Club of America takes great pleasure in presenting the attached check for \$600.00 to your Foundation. Our chapter is located in Kingsport, Tennessee, and is part of the large national organization of the Porsche Club of America.

We realize that \$600.00 may not be considered such a major contribution. Consider the fact, however, that our chapter has a membership of only 80 people. Our treasury balance normally is about \$2,400.00. It is readily apparent that the donation is significant to our club. We are very proud to be making such a donation on behalf of the Porsche Club. Consider also the manner in which we raised the money.

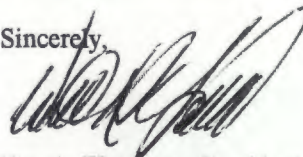

During the course of the year, we organize several car-related events. This year we organized our first charitable fundraising event. Attached are a couple of pages from our bi-monthly newsletter which explain how we developed this charitable event and why. We urge you to read this article.

This will be an annual event which will grow much larger than it was this initial year. We do not intend to be restricted to any specific charitable organization. We chose The Breast Cancer Research Foundation this year because we wanted to support the fight against breast cancer. Initially, we were considering direct funding of the Y-ME organization. Our newsletter editor discovered, at the Clinique counter of a local department store, that you funded some of the organizations which we favored (including Y-ME) plus many more excellent ones which we also favored supporting.

To make a long story very short, "WE LIKE WHAT YOU ARE DOING AND WANT TO BE A PART OF IT".

Please put the money to good use in the fight against breast cancer.

Sincerely,

Kernie Timmons, President
Wilderness Trail Region
Porsche Club of America

WKT/rp
